Career Objective

Aspiring software developer, Motivated and detail-oriented software developer with a strong foundation in full-stack web development, Java, and problem-solving. Seeking a challenging role to contribute technical expertise, build scalable applications, and drive innovative solutions that create real-world impact in dynamic and collaborative environments.

Education

Trinity College of Engineering and Research, Pune <i>B.E. – I.T. Engineering GPA: 9.31</i>	11/2022 – Present
G. R. P. Sabnis Jr. College, Pune <i>12th HSC Percentage: 77.50</i>	06/2021 – 03/2022
Shri Sainath Highschool, Ahilyanagar <i>10th SSC Percentage: 92.00</i>	06/2019 – 03/2020

Skills

- **Programming Languages:** Java, Php, C, Python
- **Web Development:** WordPress, HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React.JS, Node.JS, Express.JS
- **Database:** MySQL, MongoDB
- **Cloud:** AWS (EC2, S3, Lambda, VPC, DynamoDB)
- **Development Tools:** Git, GitHub, Docker, Postman, VS Code

Experience

MERN Stack Web Developer Intern EY-GDS & AICTE	02/2025 – 04/2025
Worked on full-stack development using the MERN stack, building an interactive recipe-sharing platform with real-time features. Focused on API integration, responsive design, and optimizing system architecture for better scalability and user experience.	

Projects

- **[Feeding Hands](#)** | *EJS, BootStrap, NodeJS, Express.js, MongoDB, Node-mailer, Stripe*
Built a real time web application - Feeding Hands, a web platform reducing food wastage by connecting restaurants with NGOs and volunteers. Enabled real-time food donation tracking, streamlined user management, and enhanced accessibility and create a meaningful social impact.
- **[SwaadConnect](#)** | *React.js, Node.js, Axios, Cors, MongoDB*
Connecting food lovers through a dynamic recipe-sharing platform where users can easily explore, share, and engage with diverse recipes—fostering a vibrant, creative cooking community.
- **[LibraTrack](#) – Library Management System** | *PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, XAMPP*
A web-based system to manage library operations including book issuance, returns, and user management. Implemented a dashboard with visual summaries of issued and available books.

Achievements

- **InnovateYou Techathon 2.0(Feb 2025):** Our team developed a digital web-platform to connect surplus food sources with NGOs for real-time redistribution and waste reduction.
- **GDSC Ideathon(2022):** Presented idea and got consolation prize on topic “**Ocean Monitoring System**” for tracking the environmental changes inside ocean and large water-bodies.
- Secured 1st rank in 3rd semester, 2nd rank in 4th and 5th semester, 3rd rank in 6th Semester with **9.31 SGPA**.
- **Certifications:** Full-Stack Web Development(*Apna College-Jan 2025*), Learn PHP and MySQL for Web Application and Web Development(*Udemy-July 2025*), Java certification(*Udemy-Nov 2024*), AI for Beginners(*HPLife-June 2025*), Master AI for Web App Development(*SimpliLearn-June 2025*), C Programming certification(*Udemy-March 2024*), C++ certification(*Udemy-April 2024*).
